SPECIFICATION

NIKKOL ALANINATE LN-30

INGREDIENT NAME: Sodium N-Lauroyl-N-Methyl-β-Aminopropionate Solution

Appearance (25℃)	**: Colorless to slightly yellow liquid with a faint characteristic odor.**
Identification (1) - (3)	**: PASS**
pH	**: 8.0~9.0 (3.0%aq. sol.)**
Purity (1)	**Sodium chloride - 1.0% max.**
Purity (2)	**Color - 100 max. (APHA)**
Purity (3)	**Heavy metals - 20ppm max.**
Purity (4)	**Arsenic - 2ppm max.**
Sodium N-Lauroyl-N-Methyl-β-Aminopropionate Purity	**: 27.0~33.0%**
Residue on ignition	**: 6.7~7.7% (Method 2, 1.0g)**

Remark: This product complies with JSQI (Japanese Standards of Quasi-drug Ingredients).

Carry-over: (0.03%) DISODIUM EDETATE
